A HOME BUT ON STEROIDS

Each room has its own characteristics such as a balcony, an attractive view, a record player or a comfortable lounge chair.

Immediately upon entering, the guest experiences a home feeling through the warm interior. In addition, the back of the building has a quiet garden for guests, the Urban Oasis, where four rooms of the same name are adjacent. The close collaboration between the architect, creative agency Containr Affairs and the enterprising Rotterdammers themselves has led to everything being considered.

We have our own, complimentary Supernova bikes available. You can easily travel through the city by bike and enjoy Rotterdam like a real local!

Get superfresh with our Supernova body care products and feel free to use your in-room hair dryer. Make yourself at home with some free Nespresso coffee or tea.

Bring your own content! Just like at home you can decide what and when to watch. Just stream your own content from your device to the TV. Moreover, the Android Philips TV allows you to download or log into preset apps.
